DAY ON DECEMBER 28TH****

Catalog Corrections on Sideline Exclusive Flyer

- 1) Players Training Pant (pg.3) – Your sample is incorrect. There will be no color blocking on the back of the knee or on the butt of the pant, there is only a side panel insert. Also, the zipper will be tonal color not contrast color liked pictured in the catalog.
- 2) Hands to the Face Hoody (pg. 6) – Your sample is incorrect. There will be no contrast stitching on the shoulder blocking. There will be no contrast stitching around the pockets like the samples. This is the same material as the Premier Fleece.
- 3) Double Coverage Pullover (pg.7) – Your sample is incorrect and the flyer is correct. The jacket will have the contrasting darts on the front shoulders of the jacket as pictured. This jacket is vented in the back as well.
- 4) Run Blitz Full Zip Jacket and Pant (pg 5) – Sample at the bottom of the jacket is more tapered than the final production run. Also, Storm Fit fabric is the same as the Clima Fit material from last year – *water resistant* and not waterproof.
